

Prof. Duygu PERCIN, MD

Duygu PERCIN graduated from Erciyes University Faculty of Medicine in Kayseri/Turkey in 1992 and became specialist in Clinical Microbiology in 2000. She is currently Professor of Clinical Microbiology and Head of Clinical Microbiology Department at Dumlupinar University Medical Faculty. She has contributed to a number of research projects, peer reviews, publications, guidelines, book chapters, mainly in bacteriology, health care-associated infections, and sterilization.

She formerly worked as CSSD manager for 13 years in Erciyes University Hospital and organised certification courses at Erciyes University for CSSD workers working in the region.

She is the president of DAS, Turkish Society for Disinfection Antisepsis Sterilization and vice president of WFHSS (World Federation for Hospital Sterilization Sciences). She has been involved in organisation of regional seminars, Annual DAS Congresses, and DAS Certification Courses (organised together with Ministry of Health of Turkey) in Turkey and contributed many international sterilization congresses all over the world.
